KL Divergence (JSD²) Across Experiments
Global KL_p=1.0e-03, KS_p=1.3e-74, MW_p=5.0e-91
KL (Global)=0.054, KL (Median per Exp.)=0.076, ΔMedian=-0.204, CLES=0.66

Error bars represent standard deviation of KL-divergence from permutation distributions.
Permutation-based p-values (bolded) indicate significance of observed KL statistic.
